Mobil SHC Aware™ H Series

ExxonMobil Marine, Australia

U.S. EPA 2013 Vessel General Permit Compliant Hydraulic Oil

Product Description

Mobil SHC Aware™ H Series lubricants are high performance, anti-wear hydraulic oils for modern high pressure hydraulic systems that meet the U.S. Environmentally acceptable lubricants". They provide excellent wide temperature performance above and beyond the capabilities of non-synthetic environmentally acceptable oils. Mobil SHC Aware H Series oils are specially formulated from esterocks and provide exceptional anti-wear and film strength characteristics necessary for hydraulic systems operating under high load and high pressures.

Features and Benefits

- Meets US EPA 2013 Vessel General Permit requirements for environmentally acceptable lubricants
- · Outstanding load-carrying and anti-wear properties which protects system components against wear and scuffing and helps provide long equipment life
- Shear stable high viscosity index help sustain component protection over a wide temperature
- Excellent thermal /oxidation stability that can help reduce maintenance downtime and costs by contributing to system cleanliness and deposit reduction, enable leand filter life
- Excellent demulsibility ensures ease of water removal in below waterline applications
- · Good elastomer compatibility, it works well with same elastomers used with conventional mineral hydraulic oils

Applications

- Marine controllable pitch propellers (CPP) systems, fin stabilizers, deck equipment, hydraulic systems where spills or leakage could result in adverse enviro impact
 - In systems where readily biodegradable and minimally toxic fluids may be required
 - Circulation systems containing gears and bearings where mild extreme-pressure characteristics are desired
 - Systems containing servo-valves
 - Hydraulic systems operating with oil temperatures in the range of -30C to +100C
 - Marine and mobile equipment operating in environmentally sensitive areas
 - Circulation systems operating under mild to moderate service conditions
 - Industrial hydraulic systems where leaked or spilled fluids could get into plant effluent
 - Air line oilers and some limited oil-mist generating systems

Specifications and Approvals

This product has the following approvals:	32	46	68
Denison HF-1	X	X	Х
Denison HF-2	X	X	X
Denison HF-6	X	X	X
Eaton Brochure No. 03-401-2010, Rev 1	X	X	X
FINCANTIERI HEES Oil for Stabilizer		X	X
FINCANTIERI HEES Oil for Thrusters		X	X
