## Teresstic<sup>™</sup> AC 32

Mobil Industrial, Canada

PREMIUM AMMONIA COMPRESSOR AND QUALITY R&O CIRCULATING OIL

### **Product Description**

Teresstic™ AC 32 is a rust and oxidation inhibited ammonia compatible compressor and circulating oil. It is formulated primarily for equipment in ammonia produc service such as centrifugal compressors in chemical plants.

Teresstic AC 32 can be used in hydraulic systems where the pump manufacturer requires a mineral type oil that does not meet anti-wear additives such as containing silver plated components. Nuto H oils are recommended where anti-wear properties are required by the hydraulic pump manufacturer.

#### Features and Benefits

Features	Advantages and Potential Benefits
Oxidation Inhibited	By employing highest quality solvent extracted paraffinic type oils, free from undesirable components and with high natural stability plus car selected inhibitors, oxidation resistance is provided to help prevent the formation of harmful sludges or acids
Foam Resistance	Excellent foam control helps to reduce the potential mechanical damage caused by air in oil
Rust Protection	Protect metal surface from damage by inhibiting rust
Good Demulsibility	Entrained water separates readily

## Applications

- Systems with oil in ammonia contact
- · Circulating splash, bath and ring oiled systems supplying lubricant for bearings and gears on industrial machinery
- Hydraulic systems that do not require an anti-wear additive

# Properties and Specifications

Property	
Grade	
Flash Point, Cleveland Open Cup, °C, ASTM D92	
Kinematic Viscosity @ 40 C, mm2/s, ASTM D445	
Pour Point, °C, ASTM D97	
Specific Gravity, ASTM D1298	
Viscosity @ 100 C, Base Oil, mm2/s, ASTM D445	5.13
