

Magnolia Drill Compound

Mobil Industrial , Ecuador

Grease

Product Description

Magnolia Drill Compound is specially designed for the lubrication of mining drill rod couplings.

It provides excellent performance in a wide variety of applications where a lubricant is required to avoid getting stuck.

It is a grease formulated with calcium thickener providing excellent resistant to water wash-out. It is formulated with additives to provide protection against corrosion.

The high percentage of solid lubricants, high viscosity base stock and the mix of naphthenic and paraffinic provides an exceptional performance at extreme pressure. It offers protection to avoid getting stuck.

Magnolia Drill Compound does not include lead.

Properties and Specifications

Property	
Grade	NLGI 2
Base Oil Viscosity of Greases @ 40 C, mm2/s, AMS 1697	410
Dropping Point, °C, ASTM D2265	110
Color, Visual	Gray
